VVT Oil Control Valve 2435525000 24355-25000 For Hyundai Santa Fe Tucson

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 24355-25000
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box, Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Temperature Range: -20°C To +120°C
- Valve Type: Oil Control Valves
- Packaging: According To Customers' Requirements
- Warranty: 24 Months
- Application: For Hyundai
- Material: Metal + Plastic
- Engine Capacity: 2.0/2.4
- Highlight: 2435525000, 24355-25000

Product Description

2435525000 24355-25000 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

Product Description:

The Oil Control Valve (OCV) is an integral component of the modern vehicle's engine. It operates closely with the engine managements system, to ensure optimal running of the engine.

The most important role of the OCV is to regulate the flow of oil to every component of the engine. This flow of oil needs to be precisely timed and tracked in order to sustain proper oil pressure, and to guarantee that the engine runs at the optimum performance.

In other words, the OCV is what keeps the engine running efficiently and in prime condition.

Features:

Our oil control valve (OCV) allows for accurate adjustment of oil flow that is essential for proper lubrication and performance of engine parts. By regulating the oil flow to ensure consistent and optimal oil pressure, our OCV contributes to maintaining the oil pressure of variable oil pressure systems. It is designed with a robust housing and high-quality components to ensure outstanding durability, corrosion resistance and long-term performance. In addition, our OCV is crafted as a direct fit replacement for your vehicle's original equipment and is precisely engineered to match the ceiling, model and engine specifications for a hassle-free installation.

Applications:

Made from a combination of metal and plastic, these valves are temperature resistant from -20°C to +120°C. With NABO Oil Control Valves, you can easily control and regulate oil pressure for improved car performance and engine protection. These valves can be used for a variety of purposes, from oil pressure control to oil pressure regulation, and from oil pressure valve to oil pressure controller. Those who are looking for reliable and durable oil control valves should look no further than NABO. Get your Oil Control Valves now and enjoy improved car performance and engine protection.

Support and Services:

Oil Control Valves Technical Support and Service

We provide technical support and service for our Oil Control Valves products. Our experienced technicians are available to help with any installation or maintenance questions you may have. We also provide free software updates to keep your valves up-to-date and running smoothly. If you need assistance, please contact us and we will be more than happy to help.

Our team of dedicated professionals is available to answer your questions and provide any support you may need. We pride ourselves on providing excellent customer service and strive to make sure all of our customers are completely satisfied. If you ever have an issue or need assistance with our Oil Control Valves, please don't hesitate to contact us.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
