

Sturdy 56500-2W300 Power Electric Steering Rack Customized Size

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 56500-2W300
- Minimum Order Quantity: 10 PCS
- Price: \$52.88 ~ \$66.88
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 5000 pcs per month

Product Specification

- Name: Power Steering Rack
- Applications: Automobile
- Size: Customized
- OEM: 56500-2W300
- Brand: NABO
- Standard: TS16949
- Highlight: **Sturdy Electric Steering Rack,
Power Electric Steering Rack, 56500-2W300**

Product Description

OEM 56500-2W300 Power Steering Rack Used For Hyundai Elantra Veloster 56500 2W300

Product Description:

The **power steering rack**, also known as a steering gear or *steering rack and pinion*, is a key component for a vehicle's power steering system. This part turns the rotational motion from the steering wheel into a lateral movement, which in turn, controls the direction of the front wheels.

The power steering rack paves the way for a smoother and easier steering experience. Without it, drivers must exert more effort in order to maneuver the vehicle in a certain direction.

Features:

Our power steering rack is made of top-grade materials such as sturdy metals and finely manufactured gears, which ensure strength, durability, and steadiness even in harsh driving conditions.

It converts the rotational motion of the steering wheel into transverse or linear motion, achieving exemplary control and accuracy of the front tyres. This superior efficiency helps provide seamless maneuvering, especially at low speeds.

Our power steering rack is designed to work hand in glove with the power steering system, providing effective assistance to reduce the effort when turning the steering wheel. It is fitted with high-clarity seals and bearings to limit singing and guarantee an extremely smooth performance. Furthermore, the low noise and vibration transferred to the steering wheel make for a more comfortable ride.

We put our power steering rack through extensive assessment and quality control measures to compete with or exceed industrial standards. It is supplied by esteemed vendors who are devoted to excellency and operation, guaranteeing you a dependable and long-wearing piece.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
