VVT Oil Control Valves Part 15330-31010 For Hyundai Santa Fe Tucson Optima

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 15330-31010
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Valve Type: Oil Control Valves
- Application: For Hyundai
- Material: Metal + Plastic
- Packaging: According To Customers' Requirements
- Temperature Range: -20°C To +120°C
- Warranty: 24 Months
- Engine Capacity: 2.0/2.4
- Highlight: VVT Oil Control Valves, Oil Control Valves Part, 15330-31010

Product Description

15330-31010 15330 31010 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

Product Description:

The Oil Control Valve (OCV) is an essential component of any vehicle's engine. It plays a critical role in regulating oil flow to different parts of the engine. The OCV is usually managed and regulated by the engine control system for the purpose of maintaining appropriate oil pressure and timing for enhanced engine performance.

Not only does the OCV have to be managed smartly for maintaining oil pressure and performance, but it also aids in preventing potentially dangerous disasters. It helps reduce wear and tear on the engine, and minimizes the risk of engine fire from high-speed oil leakage.

It is important to note that regular maintenance of the OCV and the engine's oil system is essential for smooth running of the engine and to prevent catastrophic breakdowns. An efficiently functioning OCV coupled with timely maintenance is therefore recommended for ensuring proper engine performance.

Features:

Our **oil control valve** can precisely control the flow of oil to various engine components, allowing for accurate oil flow adjustment and better lubrication and performance.

It is awarded for its ability to maintain proper oil pressure in engines with variable oil pressure systems. Our OCV regulates the oil flow to ensure consistent and optimal oil pressure, which is critical for lubrication, cooling, and protection of engine components.

Our ingenious OCV is constructed to withstand extreme conditions of engine operation. It comes with a robust housing and high-quality internal components for durability, corrosion resistance and long-lasting performance.

It is the perfect direct fit replacement for your vehicle's original equipment as it is designed to match the specifications and mounting points of your vehicle's make, model, and engine. Installation is made easy and hassle-free.

Support and Services:

Technical Support and Service for Oil Control Valves

We provide technical support and service for all our Oil Control Valves. Our experienced staff can provide you with the technical advice and assistance you need to ensure the safe and successful operation of your Oil Control Valves.

We offer a variety of support services including:

Telephone support

Remote troubleshooting

On-site assistance

Repair services

Regular maintenance

Parts and accessories

If you have any technical questions or need assistance with your Oil Control Valves, please contact us.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+ years
