

Car Radiator Water Pipe 1.6MPa Pressure 25457-2B000 254572B000

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 25457-2B000
- Minimum Order Quantity: 10 PCS
- Price: \$1.72 ~ \$2.73
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Name: Radiator Water Pipe
- OEM: 25457-2B000
- Size: 1/2 Inch
- Material: Copper
- Pressure Rating: 1.6MPa
- Application: Car
- Highlight: **Car Radiator Water Pipe,
Radiator Water Pipe 1.6MPa, 25457-2B000**

Product Description

25457-2B000 High Quality Water Coolant Hose Water Pipe for Hyundai Santa Fe 2015 254572B000

Product Description:

We are proud to introduce our high-quality Water Coolant Hose Water Pipe. It is a critical component designed to transport coolant fluid throughout the cooling system of your vehicle.

This water coolant hose water pipe is engineered with precision and durability in order to provide optimal performance and reliable cooling. We are confident that our product will meet your expectations in every way.

Features:

Our water coolant hose water pipe is crafted from high-quality materials, such as reinforced rubber or silicone, that are resistant to heat, pressure, and coolant chemicals. This construction ensures strength, flexibility, and long-lasting performance in demanding operating conditions.

The water coolant hose water pipe is responsible for circulating coolant fluid between the engine, radiator, heater core, and other cooling system components. It facilitates the transfer of heat away from the engine, ensuring proper engine temperature regulation and preventing overheating.

Our water coolant hose water pipe is designed to withstand high pressures and temperature fluctuations, minimizing the risk of leaks or bursts. It features reinforced layers and sturdy connectors that provide a secure and reliable connection, enhancing the overall integrity of the cooling system.

The water coolant hose water pipe is engineered to withstand extreme temperature variations and exposure to coolant chemicals. It resists deterioration, swelling, and cracking, ensuring consistent coolant flow and preventing coolant contamination.

Our water coolant hose water pipe is designed for straightforward installation, making it suitable for both professional mechanics and DIY enthusiasts. It is a direct fit replacement for your vehicle's original water pipe, ensuring compatibility and a hassle-free installation process.

Our water coolant hose water pipe undergoes rigorous testing and quality control measures to meet or exceed industry standards. It is manufactured by trusted suppliers who prioritize quality and performance, providing you with a reliable and durable product.

Support and Services:

Radiator Water Pipe Technical Support and Service

At Radiator Water Pipe, we are committed to providing excellent technical support and service for our products. Our experienced team of technicians is available 24/7 to answer any questions and provide assistance with installation, troubleshooting, and maintenance. We also offer a wide range of online resources, including product manuals, FAQs, and instructional videos. If you have any further questions, please feel free to contact us.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+ years
